Available now

Original JPG: 10,00 € per artwork incl. German VAT. The final price and applicable tax are shown by Payhip.

What you receive

One JPG without the preview watermark, at the stated original resolution. No physical print, frame or installation.

Print quality

Pixel count sets the available detail. A 1200-pixel side equals 10.16 cm at 300 ppi. 4K upscaling alone is not a large-format approval. Discuss material and test prints with your printer.

Custom files remain in preparation

Room dimensions, zoom and background colours are visual design settings and are not included in existing JPG purchases. Large formats and business-premises licences require a separate agreement.
